er of the Metropolitan Life building. They are now being tested. Fourteen feet from the center post to the tip is the length of the main hand and there is six feet of counter post, making a hand 20 feet over all.

Hands for Clock on New York Tower

The hour hand is 11 feet long. In making a sweep around the circle the minute hand passes three stories of the building.

These hands are made of manganese bronze and are of bridge truss construction. They weigh more than 1,700 pounds. Over the hands there is a covering of wire glass which will allow of illumination. Through each hand there are 24 inch electrical tubes in pairs. When the hands are illuminated it is estimated that it will be possible on a clear night to tell the time they mark at a distance of miles. They will be about 400 feet above ground level.

There is to be a clock on each of four sides of the tower. There will be a 7,000-pound bell, with a hammer weighing 170 pounds and four small bells to strike the Westminster chime. Three months have been spent in the construction of hands, and four sets are necessary. The clocks will be operated by electricity.

Entertained at Whist.

Mrs. Otto Roenius entertained a number of the young folks at a whist party Saturday evening in honor of her sister, Miss Francis Uehling of Richwood. The evening was a most enjoyable one and the time for departure came only too soon. A dainty luncheon was served and the favors were awarded to Miss Irene Brown, Roy Lester and Earl Weeks. Those present were Misses Fera Love, Ada Moore, Francis Uehling, Irene Brown, Agatha Schneider and Mrs. O. E. Uehling and Mrs. E. J. Bryan and Messrs. Dick Crotteau, Seth Jones, Fred Boy Lester, Earl Weeks, Fred Roenius, Art Rintelman, E. J. Bryan and O. E. Uehling?

A TRAIN LOAD OF TOBACCO.

Twenty-four Carloads Purchased for Lewis' Single Binder Cigar Factory.

What is probably the biggest lot of all fancy grade tobacco in any factory in the United States has just been purchased by Frank P. Lewis of Peoria for the manufacture of Lewis' Single Binder Cigars. The lot will make twenty-four carloads, and is selected from what is considered by experts to be the finest crop raised in many years. The purchase of tobacco is sufficient to last the factory more than two years. An extra price was paid for the selection. Smokers of Lewis' Single Binder Cigars will appreciate this tobacco.

Other Men's Wives.

"What a pretty party this is," she said, as she looked around the beautiful room at the pretty women sitting on the long divans against the wall. "And these are your wives? Aren't they sweet? Isn't it lovely?"

"Yes," he admitted, "you ought to have been at our party last month when we had a lot of other fellows' wives. It was a whole lot lovelier."

CURE.

BACKACHE IS KIDNEYACHE.

Usually There Are Other Troubles to Prove It.

Pain in the back is pain in the kidneys, in most cases, and it points to the need of a special remedy to relieve and cure the congestion or inflammation of the kidneys that is interfering with their work and causing that pain that makes you say:

"Oh, my back!" Thompson Watson, professional nurse, 420 N. 23d St., Parsons, Kans., says: "For some time I was annoyed with sharp twinges across the small of my back and irregular passages of the kidney secretions. Since using Doan's Kidney Pills I am free from these troubles."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

FIDO DULY WARNED.

Look here, Fido, if you can't be a better horse than this I shall have to discharge you an' get an automobile!

Some Resemblance.

A little girl in a California public school complained to her teacher that a Mexican boy had struck her. The teacher took Joe, the only Mexican boy in the school, sharply to task for the offense, but the boy denied it. "Mary," said the teacher, "Joe says he didn't strike you."

"Oh, no," said Mary, "I wasn't Joe; that other boy over there," and she pointed to the blackest of negro boys in the school.

"But, Mary, that boy isn't a Mexican," said the teacher.

"Well, anyhow," said Mary, "he's very much tanned."

Cure That Cold To-Day.

Footrest for Invalids.

In making a gift for an elderly person or invalid the comfort of a foot stool or footrest should not be overlooked. A carpet remnant is excellent for this purpose, or the sound parts of a worn-out rug or carpet may be utilized.

Thousands of country people know that the "old fashioned" oil of wintergreen is the best substitute for the family doctor. That is why it is so often found upon the shelf.

Adversity is a searching test of friendship, dividing the sheep from the goats with unerring accuracy; and this is good service. John Watson, D. D.

BIG HANDS FOR TOWER CLOCK.

Minute Indicator 20 Feet Long and Pair. Weighs 1,700 Pounds.

New York—One of the buildings of the Self-Winding Clock Company, at Grand and Willoughby avenues, Brooklyn, just now are to be seen the largest hands that have ever been made for a clock. They are destined for the tower of the Metropolitan Life building. They are now being tested.

Fourteen feet from the center pin to the tip is the length of the minute hand, and there is six feet of counterpoise, making a hand 20 feet over all.

PREVENTING PAINT TROUBLES.

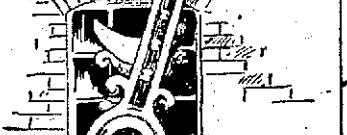

It's easy enough to recognize the symptoms of poor paint, after it has been on awhile—after its inherent tendency to crack and peel and scale and blister, etc., has developed into trouble. You know these paint "diseases" usually indicate adulteration or substitution in the paint materials. And you know the only remedy is repainting.

A little knowledge of paint and painting requirements, and how to make sure of the purity and quality of materials, would prevent all trouble, and save the big extra expense of repainting; just as a proper knowledge of simple health-laws, and observance of them, prevents sickness.

A complete painting guide, including a book of color schemes, specifications for all kinds of painting work, and an instrument for detecting adulteration in paint materials, with directions for using it, can be had free by writing National Lead Co., 1902 Trinity Bldg., New York, and asking for "Houseowner's Painting Outfit No. 49.

A very simple guide in the purchase of white lead (the only sure and safe paint material) is the famous "Dutch Boy Painter" trademark; that trademark is an absolute guarantee of purity and quality.

INADEQUATE.

And It Was Overruled.

Judge Hoar and Gen. Butler were opponents in a case of a new trial. Gen. Butler quoted: "Eye for eye, skin for skin; tooth for tooth, yes, all that a man hath, will be given for his life." To which Judge Hoar replied: "Yes, the devil quoted that once before in a motion for a new trial."

Hints to Settlers in Northern Wisconsin.

"The opportunities for farmers to settle on the new and eat-out lands in northern Wisconsin are many and favorable," writes E. J. Dufwiche, superintendent of the northern sub-stations of the Agricultural Experiment Station of the University of Wisconsin. In the March issue of the "Student Farmer," published by the students of the college of agriculture, in urging the advantages of this new agricultural region, he gives ten points which will assist the new farmer in attaining success:

"Grow clover on your land; it is the best crop you can raise."

"Cultivate well at least a part of your land; do not attempt to clear too large a farm at once."

"Dairy cows and sheep should be kept on every northern Wisconsin farm."

"Grow cultivated crops, potatoes, root crops and corn on at least one-fourth of your land."

"Strawberries and garden vegetables may well find a market or shipping point."

"Improve some land every year."

"Do not spend too much money on buildings at first, but see that they are comfortable."

"Adopt your farming to your location."

"Rotate your crops, say in this order: clover; cultivated crops; small grain; and clover again."

"Remember that all useful permanent improvements are additions to your capital."

Bulletins Show Results.

At the three northern sub-stations of the Agricultural Experiment Station at Ashland, Superior and Iron River, the problems confronting farmers in the new territory are being worked out and results given directly to farmers in these sections. Bulletins giving results with various crops in this section may be had by addressing the Agricultural Experiment Station, Madison, Wis.

"Clover is the most valuable crop that can be grown in northern Wisconsin," writes Mr. Dufwiche, "and every effort should be made to obtain good plants. Every settler should get at least one or two good cows, which may be grazed on adjoining wild lands; and with proper care and feed a good cow will give a net return of \$50 to \$75 per year. Sheep are a great help in clearing land. Chickens may yield returns and every farmer should have a flock. A few pigs should also be raised to furnish at least a part of the family meat supply."

The paper men are proceeding against the removal of the tariff on paper, claiming that they cannot operate at a profit if they are thrown into competition with Canadian manufacturers who have the wood pulp right at their door and are consequently in a position to manufacture paper much cheaper than ours. The paper makers of this country, it is a pretty hard proposition to satisfy everybody in the tariff business. The newspaper man wants to get his print paper as cheap as possible, and as consequence wants the tariff taken off paper so that he can buy it at whatever has the lowest price. This is one commodity which the republican editor seems to think it would be a good thing to have on the free list. That is because he uses it, and there are other things that other people use that would be welcomed just as readily if the tariff were taken off.

If Women Only Knew.

"Would save much needless woe.

Dean's Kidney Pills cure sick kidneys,

Grand Rapids people endorse this:

Mrs. John Grignon, living at 639 Lovo St., Grand Rapids, Wis., says:

"I am pleased to say that I received much benefit from Dean's Kidney Pills. I was troubled with a dull, languid feeling mornings as the result of restless nights. It had headaches and backaches, pains through my loins and felt miserable most of the time. My kidneys also gave me a great deal of annoyance, the secretions being too frequent in action. When I learned of Dean's Kidney Pills I procured a box and used them. They relieved the action of the kidney secretions, strengthened my back and banished the pains across my loins."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Can Consumption Be Permanently Cured?

In view of the constant agitation and misrepresentation with regard to the treatment of consumption, the National Association for the Study and Prevention of Tuberculosis has issued a statement in which it states that the only sure cure for this disease is fresh air, rest, and wholesome food.

Hardly a week passes without some quack "doctor" or "eminent specialist" informing the public that he has at last discovered the sure cure for tuberculosis. After examining every one of these so called cures, several hundred in number, the National Association states that, one and all, they are misrepresentations or fakes.

These so-called "cures" are divided into two general classes. The first class of "cures" includes the quack remedies and nostrums with which the public is being constantly deceived. These range in kind from "good whiskey" to pig's blood or ultra-violent rays. Some few of these, for instance, are cod-liver oil, linseed oil, clabbered milk, vegetable tea, and numerous inhalations of supposed germinides, besides a large number of well-known patent and proprietary medicines and numerous disinfectants. None of these are cures for consumption. They are either for the most part of a dangerous character, and patients who take them may be running a serious risk. Consumption is caused by a germ which destroys portions of the lungs or other affected tissues. No drugs, medicines, including gas, or home-made remedies can, by any means, kill the germ or close up the cavity in the lungs, as is so often claimed for these specifics. Neither is it possible to inhale a sufficiently strong germinicide to kill the consumption germ. Such an induction would kill the patient before it would kill the germ.

Another class of "cures" for consumption by which many people are deceived, includes the secret remedies advertised by unscrupulous "doctors" and "professors" at the heads of so-called "institutes." These people advertise that they can cure consumption at home by means of remedies which are secret and known only to them, or sometimes they advertise that they can cure consumption at the "institutes" through some secret course of treatment. For instance, a "professor" out in Kansas conducts an "institute" where he claims he has a drug which will surely cure consumption. A "doctor" in Minnesota says he has a now remedy which he himself will exploit for the benefit of humanity. A Colorado specialist has advertised a new method of curing this disease. A St. Louis druggist claims to have found how to "dynamite" tuberculosis germs. An "institute" in western states has been opened recently, which pretends to cure consumption, without resort to fresh air treatment, largely by means of massage, osteopathic manipulations and some secret methods. Again, the National Association asserts that the very fact of success in these cases tends to discredit so-called cures. No responsible physician will find a cure for disease and refuse to make it known because of pecuniary motives.

Cure Possible.
These two classes of "cures" are not "cures" at all. Consumption is a curable disease, however, and in some places more than 75 per cent of the patients under treatment have been restored to health. The essentials for the cure of consumption are rest, fresh air and wholesome food. A large number of physicians have been working for years to perfect a vaccine, or anti-toxin for tuberculosis, or to find some agent such as tuberculin which will assist in the cure of the disease. Thus far, the experiments have not furnished a product which will either absolutely cure or prevent consumption, or render the patient immune against the disease. Many of these serums have proved effective in increasing the resistance of the patient and thus helping in the cure, but no scientist of repute today claims to have discovered a tuberculin which will produce a cure without the combined aid of fresh air, rest and wholesome food.

SIMPLE WASH CURES ECZEMA.
Why Salves Fail While a Simple Liquid Has Accomplished Thousands of Cures.

It is now thoroughly established among the best medical authorities that eczema is purely a skin disease, due to a germ, and curable only through the skin. It is not a blood disease at all; in fact, thousands of people suffer with skin disease and are perfectly healthy otherwise, and thereby prove they have no diseased blood.

Smarcy salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by means of a penetrating liquid.

Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound, known as D. D. D. Prescription, stops the itch instantly—and the cures all appear to be permanent. In fact, it took thousands of cures, one after case, before the best scientific authorities were convinced of the absolute merit of this remedy. D. D. D. Prescription kills the germs in the itching skin. Its effect is seen within one minute after the first application. We especially recommend D. D. D. Soap in connection with the treatment.

A banquet and social gathering was held at the Modern Woodmen hall on Thursday evening, social invitations having been sent out for the occasion. A special effort will be made during the ensuing year to increase the membership of the organization and the local camp will inaugurate a prize competition to help the matter along.

Notwithstanding the fact that some wardens testified in the recent Senatorial investigation that they had used the time and money belonging to the state in doing political work, it did not seem to cause much of a shock to the people of the state. Probably it was because the people have known of it for a number of years past and have not used to this sort of corruption.

Robert Morris, county superintendent of schools, was a caller at the Tribune office on Saturday while in the city on business. Mr. Morris is again a candidate for the office that he now holds, and as he has made many friends by the manner in which he has attended to his duties in the past, there is no question but what he will make a good run in the present campaign.

We have had numerous signs of spring during the past week or two: the blue birds have chirped, the robins have sung and as a matter of fact it has been spring in every way but one. That one sign that has been lacking up to date is warm weather. These signs are all right for people who believe in signs, but it is when the weather gets so warm that you can venture out of doors in the morning without your overcoat on that we are dead sure that spring is here.

Senator Hudnall has been doing a little figuring and he finds that the legislature now in session has been asked to make appropriations for a total of \$10,805,885. This is an increase of more than \$8,000,000 over appropriations made by the legislature in 1907. In view of this fact it is hoped the legislators will immediately apply the emergency brakes and put them down hard. There is absolutely no necessity for appropriations of the magnitude that now confronts the legislature and the Republican party, which will justify being responsible for anything that is done at Madison this winter, cannot afford to make that.

Charles Wässer, who has been making his home in Chicago during the past five years, arrived in the city on Sunday, and visited about town with his friends and relatives until Tuesday when he left for Seattle, Washington, where he expects to spend several weeks. Mr. Wässer has been employed in the shoe department of Marshall Field's store for several years past, but had to have an operation on his throat for the removal of a tumor several weeks ago, which has left him in such a poor condition that he is compelled to take a lengthy rest. Mrs. Wässer during the interval will visit her parents, Mr. and Mrs. John Coulthart in the town of Rudolph.

The wrestling match and athletic exhibition given at the Daly Theater on Monday night was well attended. Bradison, the wrestler, offered to throw anybody in fifteen minutes who would come onto the stage or forfeit ten dollars and he was taken up by Dave Sharkey of Rudolph who staid the fifteen minutes and won the ten.

At the end of the bout Sharkey offered to wrestle Bradison for a side bet of fifty dollars, best two out of three falls, and he was taken up by Bradison. This match will be pulled off at Rudolph on Saturday evening March 10, when it is expected that there will be some rapid work done. The trick bicycle rider was also reported to be good, and those who attended reported themselves well pleased with the show.

Some of our neighboring cities who had been inclined to make light of the idea that the Wisconsin Central railway company was going to build their cutoff to this city are beginning to fall into line and seem to be convinced now that such is the case. There has been considerable talk about the company making a division point at or near Marshfield, and notwithstanding the fact that several other cities along the line have laid claims to a cinch on this part of the proposition, and give their reasons, it looks as if Marshfield was the most feasible point along the line for this purpose. The report has been circulated at Marshfield that the company intends putting in their shops at Manville, which is three or four miles north of Marshfield, and is said to be ideally situated for the purpose.

Ganderbone's Forecast for April

The beasts of Ukraine were beating retreat, and the slower were trying to stay with the fleet, when a lion came flying aside from the rear with his face mottled and one shredded ear.

"We thought," said the beasts. "As they saw him arrive, You stayed back to face him And eat him alive!"

But the man-eater only Ran faster and whined. And now and then ventured A survey behind.

"Well," said the hippo, who ran as he could, "did you eat him alive, as you boasted you would?" But the lion limped onward with never a word—least anything that the rest of them heard.

"I'll bet," said the rhino. "He bit off his head. And left them to find him All bloody and dead!"

Whereat they all laughed, And the lion cried: And looked at the gashes All over his hide.

"I see how it happened," the elephant said; "our brother was up in a tree overhead, and when he pounced on him, a stranger to fear, the cruel thorns tore him and shredded his ear!"

They all laughed again. And the lion, all red With blood, only shuddered And limped on ahead.

"O, come," they exclaimed As they followed with haste; "We know that you ate him. But how did he taste?"

The lion turned round at the top of a rise, and his whiskers were matted with tears from his eyes "Don't taunt me," he begged, "and I'll tell you my woes." And blood trickled off at the end of his nose.

"We'll do it!" they answered. And husky with grief And fear, he proceeded:

"My story is brief. I did lay for Teddy. Intending my worst, And I jumped as I promised—but But he hit me first."

A fresh and sweeter oxygen will glorify the days, the sun will tempt the flowers with its soft and warm rays, the farmer will put in his corn, the ducks will lay again, the meadow lark will wake the morn with ravishing refrain, the native will mount his wool and don his summer jeans, and man will pasture his blood with sassafras and creosote.

Some of the people who subscribed for a small amount of stock in the first place with the intention of taking more later on will find that it is impossible for them to do so. Some people had been of the opinion that there would be some trouble in securing these subscriptions, but it seems that they were mistaken.

BOYLES TAKEN TO PITTSBURG FOR SAFE KEEPING.

INDICTED AT CLEVELAND

Will Be Tried for Blackmail If They Fall of Conviction in Pennsylvania—Identified by Whiting Boy.

Pittsburg, Pa.—Fearing for the safety of their prisoners if they were taken to Sharon, the county seat at Mercer, officers brought James H. Boyle and his wife, accused of kidnapping Willie Whiting, to the Allegheny County jail here.

They were brought here in a special Pullman car from Cleveland by way of Youngstown and New Castle, over the Pittsburg & Lake Erie railroad.

The prisoners were guarded in their car by 16 detectives and officers.

It was the unanimous opinion of the officers engaged on the case that it would be safer not to take any chances by exposing their prisoners to the wrath of the Sharon populace.

Indictment was filed at Cleveland, Ohio, on the heads of the Boyles in a joint indictment charging them with blackmail.

This charge is based on the payment of \$10,000 ransom by J. P. Whiting for the recovery of his son in that city last Monday. This indictment will be used

in the trial of the Boyles in Pennsylvania.

"This job of police commissioner," he said, "for example, would be a regular gold mine to a dishonest official. If it were put up at auction to the highest bidder, a man could well afford to pay \$1,000,000 for a year's opportunity to accept what the criminal classes would be only too glad to offer him."

Then he referred to the \$600,000 bribe offer which he had received when he first took up the office. "The offer was of course carefully guarded," he said. "It came from a suave gentleman, who knew how to handle words to perfection and was able to make his hearer understand what was meant without laying himself open to any unpleasant after effect."

"I listened until I understood what the fellow was about. Then I gave him such a talking to that he will never forget his visit here so long as he lives. I have not heard from him since."

Commissioner Bingham declined to give the name of the man who had made the offer, nor would he say what interests had sought protection.

MINERS WILL NOT STRIKE.

Decide to Remain at Work After April 1.

Saratoga, Pa.—Reaffirming the demands already presented to the operators, the anthracite miners Wednesday night voted to remain at work after April 1 allowing the district executive boards of the hard-coal fields of Pennsylvania to continue their efforts to get an agreement satisfactory to the men.

The miners were instructed by the convention to continue at work until such time as they are otherwise notified by the official representatives of the three anthracite districts, and the executive boards were instructed to negotiate an agreement upon such basis as the boards in their judgment believe the conditions warrant.

A resolution to ask President Taft to appoint a commission to arbitrate differences was adopted by the convention and referred to the executive boards to put it into effect at their discretion.

British Navy Officer and His Party Within 111 Miles.

London.—Lieut. E. H. Shackleton of the British navy, commander of the Antarctic expedition which returned in the early part of the year, has been appointed to reside in Sharon, and is a planter by trade. He is said to have a widow mother, four brothers and a sister.

Boyle identified Kidnappers. Cleveland, Ohio.—All agreed that the man and woman arrested Tuesday night are the kidnappers of Willie Whiting (Pa.) boy whose father sold \$10,000 ransom for his recovery, was disposed of Wednesday, when the lad, without hesitation, identified the prisoners when he faced them in the police station.

Willie Boyle said the man who gave the name of James H. Boyle was the one who took him from school and carried him through the tortuous route to Cleveland, then to Ashtabula, back to this city, and placed him in the house in the east end where he was held until the money was paid. Willie was also advised that the woman who had cared for him at the house where he was detained and who acted the part of a nurse.

Boyle said the woman was his wife. The police have no other identification of the couple than the names given. Boyle is said to reside in Sharon, and is a planter by trade. He is said to have a widow mother, four brothers and a sister.

This woman, who is accredited with being the wife of Boyle, declared soon after her arrest that her identification would cause a sensation in Sharon.

When the kidnappers was com-

plained Mr. Whiting would say nothing regarding the woman, lie said he had no more to say nothing

about her.

When Boyle was taken before the boy Chief Kohler asked Whiting if he had ever seen the man before.

"Sure," is the man's reply.

"What is the name?"

"Hello, Whiting," the woman replied, as she placed her hand upon his head and caressed him for an instant.

The boy then stepped back to his father and was asked several questions by the chief of police.

"Yes, I know her," he said, "she was the nurse who took care of me in Cleveland. She told me I was sick and in a hospital. I saw her a whole lot as she was with me most of the time."

AN EARNEST STUDENT OF THE TARIFF QUESTION.

GOTHAM POLICE COMMISSIONER COULD HAVE \$600,000 YEARLY.

Declares His Job Would Be a Gold Mine to a Dishonest Man.

New York.—A dishonest man holding the position of police commissioner in New York city easily might become a millionaire in a few months, so great are the opportunities for illicit gains, according to a statement by Commissioner Bingham.

During Mr. Bingham's first year in the office, he said, a single bribe of \$600,000 a year was offered him if he would protect certain criminal interests.

"Compliance with the conditions of the offer," he added, "would have been entirely of a negative nature; all they wanted was to let alone."

Commissioner Bingham was worked up over the refusal of the city administration to give him an appropriation of \$100,000 for secret service to investigate "Black Hand" crimes and other matters.

This is the unanimous opinion of the officers engaged on the case that it

Election Notice.

Office of the City Clerk, March 21, 1909.

To the electors of Grand Rapids, Wisconsin.
Notice is hereby given that a judicial and municipal election is to be held in the several wards and election precincts in the city of Grand Rapids on the sixth day of April, A. D. 1909, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office, are given opposite to the title of the office and under the proper party or other designations, each in its proper column, and the questions submitted to a vote are as stated below.

Information to Voters

The following instructions are given for the information and guidance of voters:—The voter, upon entering the polling place and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon, the names or initials of both the ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment and procure the same for voting. The ballot clerk may inform the voter as to the proper manner of marking the ballot, but he must not advise or indicate in any manner whom to vote for. To vote for any candidate, the voter should make a cross in the square after the name of each candidate in desire to vote for, or at any place within this space in which the name is printed. If he wishes to vote for a person for a certain office whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office, and place a cross or mark as above stated. The ballot should not be marked in any other manner. If any ballot be spoiled, it must be returned to the ballot clerk, who must issue another one in its stead, but not more than three (3) in all to any one voter. Five (5) minutes time is allowed in the booth to mark the ballot. Unfilled ballot or memorandum to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it is marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. The voter, who declares to the presiding officer that he is unable to read, or that by any reason of physical disability he is unable to mark his ballot, can have the assistance of one or two election officers in the marking the same to be chosen by the voter, and if no declare that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the city. The presiding officer may administer an oath in his discretion as to such person's disability.

Every one is anxious for the rest of

the snow to disappear so they can

get to farming again. Most of our

roads are in very poor shape at

present as there is no wheeling or no

sledding.

The sawmill has been closed for a

couple of days.

There will be church services at the
